**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

This is a decision on the petition to revive under 37 CFR 1.137(a), filed January 7, 2004 (Certificate of Mailing dated January 5, 2004), which is being treated as a petition under 37 CFR 1.181 to withdraw the holding of abandonment.

The petition under 37 CFR 1.181 is GRANTED.

A Notice of Abandonment was mailed in the above-identified application on December 1, 2003, informing applicant that the application had gone abandoned for failure to reply to a Notice to File Missing Parts mailed on June 14, 2001. A review of the application file does not indicate that a Notice to File Missing Parts was ever mailed in the above-identified application. The application file does contain a Notice to File Missing Parts of Provisional Application for application number 60/271,255. However, the above-identified application filing transmittal specifically identified the application as a filing under 37 CFR 1.53(b). The filing did not identify the application as a provisional application.

In view of the above, the Notice to File Missing Parts of Provisional Application was mailed in error and is hereby VACATED.

The holding of abandonment is WITHDRAWN.

See 37 CFR 1.53(c)(1).

Receipt is acknowledged of the \$385 statutory basic filing fee, the \$65 late surcharge, \$86 independent claims fee, \$40 assignment record fee, and \$55 petition fee, all filed with the instant petition. Given the basis for granting this petition, the \$55 petition fee has been refunded to Deposit Account No. 06-1050.

Receipt of the 37 CFR 1.63 declaration, also filed with the instant petition, is acknowledged.

The application file is being forwarded to the Office of Initial Patent (OIPE) for further processing. Applicant will receive appropriate notifications regarding the fees owed, if any, and other information in due course from OIPE.

Telephone inquiries related to this decision should be directed to the undersigned at (703) 305-0272.

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.
